PROJECTS

Food Appointment System
Technologies: React.js, Bootstrap 5, Node.js, Java, Spring Boot, REST APIs, MySQL, JWT, Razorpay, Cloudinary

- Developed a web platform that allows customers to book food appointments at restaurants.
- Enabled users to browse menus and prices, book meals in advance, pay 25% upfront via Razorpay, and receive email updates.
- Designed to reduce waiting times and streamline restaurant workflows during peak hours.
- Implemented JWT authentication and an email notification service on the backend.

Smart Farm Management System
Technologies: Android Studio, Flutter, Dart, Firebase, PDF API

- Developed a Flutter-based mobile application for farmers to manage crop records, plots, pesticide schedules, and fertilizer usage.
- Implemented offline data storage and CRUD operations for crop and input management without internet connectivity.
- Integrated PDF report generation to export summaries of farming activities and expenses.

Cloud-Based Video Streaming Platform
Technologies: React.js, Bootstrap 5, Node.js, Supabase, FFmpeg

- Developed a platform allowing users to upload, stream, and interact with videos, similar to YouTube.
- Used Supabase for video storage and FFmpeg for processing videos into multiple resolutions.
- Added features such as likes, watch later, and channel subscriptions.
- Supported adaptive streaming and manual video resolution selection.

EDUCATION

B.Tech in Computer Science & Engineering
Sinhgad College of Engineering, Pandharpur *2022–2026*
CGPA: 9.33/10

HSC - Science
Sangola Vidyamandir Prashala Jr. College *2022*
Percentage: 57.00%

SSC
DBK Sambhajirao Shende Vidyalaya, Medshingi *2020*
Percentage: 83.40%

INTERNSHIP

QSpiders - Software Testing Training Institute
Software Development Intern *Dec 2025 – July 2026*

- Completed hands-on training in Java, SQL, HTML, CSS, JavaScript, and software development concepts.
- Solved coding problems and developed mini applications to strengthen programming and problem-solving skills.

SKILLS

Programming Languages: C, Java

Frontend Technologies: HTML, CSS, JavaScript, React.js, Bootstrap 5

Backend Technologies: Spring Boot, REST APIs, JWT Authentication

Database: MySQL, SQL, MongoDB

App Development: Android Studio (Java - Basics)

AI Tools: ChatGPT, Cursor, Google Antigravity, Google Gemini, Gamma

Developer Tools: Git, GitHub, VS Code

Core Concepts: Basic Data Structures and Algorithms in Java

CERTIFICATIONS

- AI for Students: Build Your Own Generative AI Model – NxtWave
- PHP and MySQL Training – Spoken Tutorial
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle University (Aug 2025)

HOBBIES & INTERESTS

- Learning new technologies
- Listening to music
- Traveling
